## Reverse Charge Calls

This section only applies to customers who take line rental from NOW TV.

A Reverse Charge call is made when somebody phones you at home and requests that you pay the cost of the call.

Reverse Charge calls can be made from landlines, mobiles and payphones in the UK and abroad and you will be charged different rates depending on where the call is made from.

### UK Reverse Charge Calls

The cost of a UK Reverse Charge call is divided into two parts: a service charge and a charging rate. The cost of the call is dependent on the type of the line the call was made from.

These charges are also applied when a customer receives a call from somebody using the 0800 REVERSE service.

| Type of line - origin of call | Service Charge | Call Charge (pence per minute) |
|-------------------------------|----------------|--------------------------------|
| UK landline                   | £5.31          | 40.85 <sup>1</sup>             |
| UK payphone                   | £5.31          | 255.32                         |
| UK mobile                     | £5.31          | 255.32                         |

<sup>1</sup> Charges are for each minute or part thereof. The minimum charge is for 5 minutes.  
The time duration of a call includes the time element for setting up and disconnecting the call on the BT network.

### International Reverse Charge Calls

## Operator Connected Calls

Customers may use an operator to connect calls to many destinations in the UK and abroad. Customers should be aware that the costs of making calls through an operator are often higher than making the calls direct, so customers should try to make direct calls whenever possible. This is not the case for the Special Assistance Operator.

The different operators available to call are:

| Operator Type      | Number  |
|--------------------|---------|
| UK                 | 100     |
| International      | 155     |
| Special Assistance | 198/195 |

There is no charge for making a call to an operator. Charges only apply if the operator then connects your call to a subsequent destination.

Charges for these calls generally have two parts: an Operator Service Charge for connecting the call which is a fixed amount for each call, and a Call Charge based on the type and duration of the call.

### Operator Connected Calls to UK Numbers

Customers can easily make calls via an operator in the UK to the destinations in the following table. Customers cannot make Operator Calls to premium rate numbers. Customers who connect to directory enquiries via the 100 Operator will be charged as though they had made the call direct to the directory enquiry service.

## Operator Connected Calls to International Numbers

The cost of an International Operator Connected Call depends on which charge-band the destination country is in. Please see the table below for a list of international charge-bands and rates. Please refer to the International Specialised Numbers Guide to see which charge-band a particular country is in.

Operator Connected Calls to most international mobile telephones will be charged at 25p per minute more than the landline rate. Operator Connected Calls to some international mobile destinations (e.g. USA, Canada, Hong Kong) are charged at the same rate as a landline call.
